

***ARE DELIGHTED TO ANNOUNCE THE ARRIVAL OF***

→ **From 4th March, exclusively on CANAL+ LE BOUQUET**

Programmes are at the heart of the CANAL+ BOUQUET strategy. Choose the best of all genres to meet everyone's needs, whether these relate to sport, cinema, documentaries, fiction...

**With a view to constantly increasing the satisfaction of their subscribers, CANAL+ REUNION launched, from 4th March 2008, their new exclusive channel, CANAL+ FAMILY.**

**CANAL+, CANAL+ CINEMA and CANAL+ SPORT are now complemented by CANAL+ FAMILY, the first channel dedicated to the family and children. This offer of four channels which complement each other allows each member of the family to access their favourite programmes according to their individual needs and desires.**

Faithful to the personality and values of its big sister company CANAL+, CANAL+ FAMILY is a channel to be watched as a family, for 7 to 77 year-olds, which, notwithstanding, lacks no audacity or liberties and maintains a creative cutting edge, proposing programmes which are carefully selected with a warm, convivial context in mind, creating at once that unparalleled environment of a family get-together.

CANAL+ FAMILY does not broadcast advertisements or violent programmes and promotes listening, sharing, conviviality and the exchange of views, liberating children from consumerist influences. With CANAL+ FAMILY, the whole family can get together around the television, increasing the good times spent together, creating new shared experiences and contributing to parents' roles as educators through active participation in children's upbringing.

**CANAL+ FAMILY, the channel which brings the whole family together!**

## **CINEMA ON CANAL+ FAMILY**

With CANAL+ FAMILY, cinema is a shared family event, with a rich and varied selection of films for all. From the latest big picture to box-office favourites and classic animated films, cinema becomes a real occasion for shared pleasure.

**CANAL+ FAMILY provides cinema sessions for the whole family!**

## YOUNG PEOPLE ON CANAL+ FAMILY

**At all important times of the day, CANAL+ FAMILY is here with its heroes, original series and new programmes.**

Accompanying children from morning 'till evening, **CANAILLE +** provides rendezvous which are not to be missed, to laugh and smile, dream a little, and understand through having fun. In the programme: good jokes ("Hello Bob, said the donkey"), handy eco hints to save the planet (in our own small way), magic shows, handicraft ideas to customise everyday objects... not forgetting the deciphering of incomprehensible proverbs (the more I pedal weaker the less I go faster) and, of course, the "Who are you?" series, to polish up your general knowledge of people who have changed the course of history, such as Cleopatra or Antoine de Saint-Exupéry, who wrote a very well-known book...what was it called again?

And what's more, nowadays, they play rock n' roll (or pretend to) and dance tecktonik for real!

Three daily entertainment slots framed by child-only presenters: the morning, getting home from school and the evening, after the efforts of the day. The kids won't be able to do without them!

From science-fiction with **VALÉRIAN AND LAURELINE**, an exclusive new series adapted from the cult comic by Français Jean-Claude Mézières and Pierre Christin, to the **LITTLE VAMPIRES' SCHOOL**, an Italian cartoon centred on little vampires who are not at all frightening.

Not forgetting **THE CHILDREN OF FIRE**, a magnificent series, like a QUEST FOR FIRE revisited, educational and absorbing! Along with **THE RAVING RABBIDS** or **CREEPSCHOOL**, children will very soon make new friends on CANAL+ FAMILY!

## SERIES AND FICTION ON CANAL+ FAMILY

**Like its big sister CANAL+, CANAL+ FAMILY takes on the role of unearthing new series which will soon become cult programmes for children and their parents.**

These come from England, with a **ROBIN HOOD** revisited and full of charm, or with **MY FAMILY**, a cross between a typical British comedy and an American sitcom narrating the trials and tribulations of a father driven to distraction by his offspring; the United States with **FLIGHT 29 DOWN**, where a group of around ten young people experience life lost on a Pacific island.

These new TV rendezvous are certain to attract many faithful young viewers, quick to encourage their parents to discover them too.

**Warm moments of togetherness are in the pipeline!**
